

EXCAVATORS WANTED!

For a collaboration between the Institute of Archaeology, Brno (Czech Republic)
and the Department of Anthropology, University of Minnesota (USA) at

Tvarožná

an Early Upper Paleolithic site
in the Czech Republic

JULY 15 - AUGUST 15, 2008

Six Reasons to Join the Project:

1. Prehistory: You will uncover 40,000+ year-old stone artifacts of the Bohunician Industry, made by either Neanderthals or earliest modern humans in Europe.
2. History: You will be working in the Austerlitz Battlefield, where Napoleon defeated 2 emperors.
3. Evolution: Visit the monastery in nearby Brno where Gregor Mendel made his discoveries in genetics.
4. Archaeology: Learn the field techniques of a modern excavation: laser theodolite and dating by TL & OSL.
5. Culture: Learn about Czech culture, where, even in the field, they are proud of how they care for their beer.
6. Course credit for University of Minnesota students.
